### NR1606

## SLIM DESIGN NETWORK A/V RECEIVER

Discover a thrilling new dimension in surround sound with the NR1606 A/V Receiver, which features Dolby Atmos® immersive surround decoding. With Dolby Atmos you'll experience the same revolutionary 3D surround sound found in premium movie theaters, with the ability to create an overhead surround soundfield that dramatically expands the sonic space. And, via a future firmware update, the NR1606 will be able to decode DTS:X<sup>™</sup> soundtracks, which also deliver an immersive 3-dimensional soundspace. With 8 HDMI 2.0a inputs (including 1 conveniently located on the front panel), the NR1606 is equipped to handle 4K Ultra HD full rate 60Hz content, 4:4:4 Pure Color sub-sampling, and 21:9 aspect ratio passthrough as well as Hyper Dynamic Range (HDR) and BT.2020 pass-through. All 8 HDMI inputs are also HDCP 2.2 compliant, which is a requirement for 4K Ultra HD copy-protected content. Featuring high current discrete power transistors on all 7 channels, the slim-design NR1606 packs the same punch as larger models, delivering earth-shattering surround sound from 50W per channel. Enjoy your digital media files from wherever they are stored, thanks to Bluetooth® and Wi-Fi built in. The advanced networking facilities for audio streaming include Internet radio, AirPlay® and Spotify Connect® – as well as Gapless HD Audio and DSD streaming.
