RC3001 – Programmable Remote with LCD

The Marantz RC3001 opens a new dimension in customisable, interactive devices giving you full control of virtually all your audio and video devices through its direct learning capability. Moreover, the RC3001 can be customised even further by the sophisticated programming Wizz.it3 software on your PC. No direct view to the system to be controlled? Hidden behind a corner or in a cupboard? No problem for RC3001 as it supports RF-transmission and comes with an extension module. It also gives you programmable direct access hard buttons and cursor control, display and buttons with backlight for easy operation in the dark, rechargeable batteries and a power adaptor. Housed in a trend-setting black design, the light, ergonomic RC3001 provides effortless, intuitive control and navigation, for truly personalized home entertainment enjoyment.
